

REACH Compliance Statement

At BelleFlex Technologies, we are committed to upholding the highest standards for product safety, environmental responsibility, and regulatory compliance. As part of this commitment, we fully support and comply with the European Union's REACH Regulation (EC) No. 1907/2006 — Registration, Evaluation, Authorisation, and Restriction of Chemicals.

Our Belleville springs and related components are manufactured using materials and processes that align with REACH requirements. To the best of our knowledge and based on supplier data, our products do not contain any Substances of Very High Concern (SVHC) above the 0.1% weight threshold as defined under REACH.

We work closely with our supply chain to ensure transparency and compliance throughout the material lifecycle and remain vigilant in monitoring REACH updates to ensure ongoing adherence.
